A High Quality Palm Fat

**Maximize your
revenue per cow**

nutritechSOLUTIONS

enervive™

Enervive is a high quality palm fat that can be fed in a nutrition program designed to increase butterfat.

AVAILABLE COMPOSITION

Enervive 95 is available in both prill and flake form

1. Free flowing prill for supplement and complete feed usage.
2. Flake for providing a better TMR mixing and utilization by the cow.

WHY IT'S BETTER

FRESHNESS

- Made to order from recently picked palm fruit in Malaysia and shipped to Canada within 6 to 8 weeks.

CONSISTENCY

- Produced at a single plant to ensure consistent quality everytime.

HIGH DENSITY AVAILABLE

- Minimizing the amount you need to feed to attain maximal results. Backed by highly knowledgeable technical support.

**CONSISTENT
QUALITY
GUARANTEED**
